

We are hiring!

Repair Technician I

Who we are:

We are **Wintriss Controls Group LLC**, a leading manufacturer of press automation, die protection, and safety controls for the metal stamping industry, and data collection software for all discrete manufacturing. Our products, which leverage Wintriss' 50+ years of experience in the metal stamping industry, are known for their proven performance and rugged dependability in the toughest factory environments. We are located in Acton, MA where we design, manufacture, and service our productivity and safety solutions.

At **Wintriss** we are a family, as demonstrated by many of our employees' longevity with the company. We value self-starters with a strong work ethic and resourcefulness. All our employees demonstrate daily their flexibility and willingness to 'wear many hats' and are truly invested in our company's overall success. If you are team-oriented but simultaneously thrive on working independently and wish to build your career with a family-oriented industry leader, we would love to hear from you!

The Role:

The Wintriss Repair Tech I repairs Wintriss products to the component level with minimum direction. Demonstrates an aptitude and interest to learn the correct operation of Wintriss equipment with respect to current specifications and customer requirements.

What will you be doing:

- Receive, repair, clean, inspect and test to the component level Wintriss products using hand & power tools, measuring & testing equipment, schematic diagrams, assembly drawings, instruction manuals, and following company procedures.
- Effectively utilize the Wintriss repair and RMA programs to perform tasks and/or maintain information such as RMA database documentation, schematic & drawing inquiries, B.O.M. inquiries, inventory requests & adjustments, credit transactions, email, provide pricing & availability, calibration rentals, and program firmware.
- Access product manuals, price lists, repair codes, and modifications log.
- Maintain necessary test equipment and hand tools to a level consistent with Wintriss shop policy.
- Maintain inventory of electronic and electro/mechanical components for product repair and the Board Exchange program.

The repair technician uses the following equipment:

- Basic technician hand tools (i.e., pliers, cutters, screw drivers, hammers, power drills, etc)
- Soldering & de-soldering irons
- Multimeter or VOM
- Oscilloscopes
- Automatic Test Equipment
- AC test fixtures

Qualifications:

- Requires an Electronic Trade School Certification or Associates Degree in Electronics.
- Certificate in soldering preferred, surface mount capability a must.
- Ability to read and understand electronic schematics and wiring diagrams.
- Data entry accuracy is essential.

Wintriss Controls Group, LLC offers a competitive salary package in addition to a comprehensive benefits package including a 401(k) plan with company match. Wintriss is an Equal Opportunity Employer.

Job Type: Full-time, onsite
